RESIDENTIAL DEVELOPERS

COMMUNITY SERVICES

With over 30 years experience, **Devcon Security** is a premier provider of installation, monitoring and related electronic security services. Today's security solutions are not as simple as a "one product fits all" scenario; on the contrary — customization in satisfying specific needs is the preferred choice.

Devcon Security, in focusing on four distinct security market sectors, is recognized and respected for appraising, designing and delivering security solutions with comprehensive local coverage throughout the Southeast.

HOME OWNERS

Selecting a security company to protect your home is a very important long-term decision. Devcon Security listens to your needs and works with you to prepare individualized solutions that fit your security and lifestyle requirements.

- Providing state-of-the-art residential security equipment
- Providing "whole house" management systems that allow for total home automation from remote locations
- Professionally trained representatives meet you personally to evaluate security and lifestyle needs
- Devcon Security's technical support centers ensure that you experience peace of mind with active response from a reliable local presence 24/7
- Customized solutions for both new construction and existing residences
- Unparalleled experience with Home Owner Associations and Gated Communities

RESIDENTIAL DEVELOPERS

Devcon Security is extensively involved in design and development, from the early stages right through to project completion.

Dedicated community development representatives work hand-in-hand with developers and their appointed contractors, ensuring that:

- Economical packages are structured from the outset to ensure maximum profitability for the builder/developer
- Projects are managed and completed in a cost effective manner to meet your scheduling requirements

COMMERCIAL PROPERTY

In the business world, securing your investment is paramount to your financial success. Devcon Security has dedicated designers who work exclusively to help you develop a strategic plan for securing the environment in which you do business, around the clock. Our designers will conduct a comprehensive appraisal of your current operations and potential future needs.

Devcon Security's next generation technology includes:

- Intrusion/security systems
- Fire/life safety systems
- Closed circuit video surveillance
- Critical access control systems

COMMUNITY SERVICES

Whether it is government owned facilities or public buildings such as court houses, hospitals and other high profile community establishments, Devcon Security is at the forefront in providing a totally secure environment.

When public health and safety are at stake, there can be no compromise, especially in today's world.

Devcon Security works closely with public safety personnel such as:

- Police and fire department officials
- Public event organizers
- Schools and college advisory boards
